

New functionality has been rolled out meaning RM SafetyNet admin users can now make DNS changes when logged into RM SafetyNet.

Steps to make changes;

- In the top left-hand corner, you will need to switch from RM SafetyNet to RM DNS.
- You will need to make sure the correct domain is selected (see the yellow circle below) and you will need to make the DNS changes twice – once so the DNS resolves internally – and once so the DNS correctly resolves externally (see red circles below):

Select the domain that you would like to manage from the dropdown.

Domain: thegrid.org.uk

Select	Name	Type	Content	Priority	TTL
<input type="checkbox"/>		NS	smart-dns.ifl.net		86400
<input type="checkbox"/>		SOA	smart-dns.ifl.net, dnsmaster@rmplc.co.uk, 20151224 70, 28800, 28800, 28800, 86400		86400
<input type="checkbox"/>		A	194.154.20.9		300
<input type="checkbox"/>	bravo	A	212.250.251.134		86400
<input type="checkbox"/>	dog	A	82.0.80.36		86400
<input type="checkbox"/>	echo	A	46.16.4.21		300
<input type="checkbox"/>	foxtrot	A	46.16.4.22		300
<input type="checkbox"/>	golf	A	46.16.4.23		300
<input type="checkbox"/>	hgflvpn1	A	212.250.251.140		86400
<input type="checkbox"/>	hgflvpn2	A	212.250.251.142		86400

- To create a DNS record, scroll to the bottom of the page and click on Add Record. You will then need to enter the DNS instruction. Try and avoid typing this as you could make a mistake/a typo. Click on Create Changes to save the change.
- Alternatively, if you are changing/deleting an existing DNS record, you will need to select the DNS record you wish to update, and click on Edit. Once you have updated this accordingly, you will need to click on Update to save the changes:

<input type="checkbox"/>	a238	A	46.16.4.130	300
<input type="checkbox"/>	a239	A	46.16.4.131	300
<input type="checkbox"/>	a240			300
<input type="checkbox"/>	a241			300
